

Failed Course/Credit Recovery Option: Full Time Students

This plan is to establish a credit recovery option for failed eSchool courses for **Full Time** eSchool students. By allowing students to take advantage of a credit recovery option, we are providing them with an opportunity to recover a failed mark and obtain the required credits for graduation. For students who receive a failing mark for their eSchool course(s), the following progression will be used:

Progress Review: The student will have their academic progress and credits reviewed by their **managing counselor/ case manager** for possible recommendations regarding interventions/modifications.

Recovery Option: The student has the option to retake the failed course(s) as a credit recovery option.

Requirements:

- Must have successfully completed at least 30% of the original course work.
- Have the managing counselor/ case manager's permission.
- Parents Permission (if under age 18).
- Establish a modified pace chart/ timeline for completing the remainder of the work.
- Student will only be enrolled for a duration agreed upon based on remaining work.
- Must successfully complete the remaining course work, including possible resubmissions.
- The new final grade would replace the existing failed mark on the student's GPA calculation, though both marks will appear on the official transcript.

Discontinue Option: The student chooses to discontinue eSchool completely and return back to their designated home school.
