Mission Statement: The Kenosha eSchool, in partnership the Wisconsin Digital Learning Collaborative, exists to utilize new and emerging technologies providing students access to high-quality standards-driven curriculum in an environment that is self-paced and accommodating to students' varying physical locations, individualized plans, and time frames.

The Kenosha Unified School District (KUSD) offers online courses and a full-time online school through the Kenosha eSchool. The eSchool is a virtual charter school authorized by KUSD in 2007. The Kenosha eSchool serves over 1200 students and over 3,000 course enrollments each year. Students are in grades K through 12 and complete all their courses online, with the exception of high school final exams and standardized tests, which are administered at the eSchool building. Kenosha eSchool has its own computer lab to provide a workspace for online teachers to meet face-to-face with students during office hours, a place for students to take final exams, and a secure setting to administer required standardized testing. Kenosha eSchool serves both full-time students, who take all of their courses online, and part-time students, who taking supplemental courses online while enrolled in a traditional school.

The eSchool employs 15 staff members, including 10 full-time online teachers from KUSD, the eSchool principal, a counselor, a teacher consultant, a secretary, and a student support specialist. Four extended-day teachers assist in specific content areas such as Art, German, and Psychology. The eSchool has benefitted from strong leadership and a collaborative relationship with building administrators and teachers across the district. The program's principal, Daniel Tenuta, was previously an assistant superintendent bringing extensive experience in school operations and integrating online learning across the district.

<u>Graduation Requirements</u>	
<u>23.5 Total Credits</u>	
4 credits	English
3 credits	Social Studies
3 credits	Math
3 credits	Science
