Logging into Compass Learning for Credit Recovery Courses

To log in to Compass Learning Odyssey, students can log into their regular eSchool account and click on the Compass Learning course (depending on which course has been assigned to the student). Ex. Algebra 1 Segment 1 (Compass)

1. Under the student Academic Snapshot, click on the course title with “Compass” included to direct you to the Compass Learning portal. This is also where you can do a “Check System” to ensure your computer meets the minimum requirements.

2. Enter your user name and password. KUSD Student ID will be used for both login and password.

3. Enter KENOSHA into the School field.
When students log into Odyssey, they see a launch pad that corresponds to their assigned courses or support resources. The look of the launch pad changes according to grade level. The student Launch Pad displays assignments (circled in orange) and other available activities.

Begin by clicking on an assignment or activity.
